The worlds first hand held playing card "dealer"

**What is the hardest
thing about
playing card games?**

www.WHEEL-R-DEALER.com

Handheld electronic playing card dealer.
Patents pending

Dealing!

Now you can take the
biggest
hassle away from your
gaming fun...
No more clumsy
shuffling!

This new hand-held electronic
card dealer was tested by both
young children and older seniors
who commonly had more
difficulty manipulating cards,
and guess what?

EVERYONE LOVED IT!

One of the newest products to
solve an age old problem!

Card players young and old
find it easier to deal with the
Wheel-R-Dealer!

Players with arthritis can
deal cards faster & easier
(even Bridge or Poker Cards)
and it's great for children's
games and educational toys!

JUST POINT & DEAL!

**Check out our website
for a video demo!**

*Is there someone on your gift
list who really enjoys playing
cards but has trouble
dealing??*

*Are you looking for a unique
way to bring "family fun"
back into the home?*

Here's how to order:
www.wheelrdealer.com

How it all got started...

It began with just two
friends wanting to make card dealing
more fun and fair turned into the
realization that most people don't even
enjoy dealing or simply weren't able to.
This was the turning point that sparked
the design concept of the
Wheel-R-Dealer.

After testing, it went to production just in
time for the Global Gaming Expo in Las
Vegas in November 2008.

Here were some of the comments
received:

***"Best new product in ten
years!"***

***"The retail and promotional
gift that everyone will want!"***

"Fun, Fun, Fun!"
